CABINET MADE BY LINCOLN.

Internal improvement system and a high protective tariff. These are my sentiments and political principles. If elected, I shall be thankful; if not, it will be all the same.

In these few sentences Mr. Lincoln adopted the leading principles of the Whig party, Clay's "American system" in full. In his view, as we shall see by another paper from him when again a candidate in 1834, the internal improvement system required the distribution of the proceeds of the sales of the public lands among the states. He says nothing of South Carolina, of nullification, of disunion, and on these subjects it is quite probable his views were like Mr. Webster's and his sympathies with Jackson. The opinions announced in this speech on all the subjects touched by the speaker were as emphatically

Whig as they could be made in words, yet as far as they related to internal improvements and indirectly favored the increase of bank issues they were such as most of the nominal Jackson men in Illinois professed to hold and such as they united with the Whigs to enforce then and afterward in the state legislature. The "whole hog men" would have none of them, and therein lay the distinction.

Although the Democratic party continued to have a numerical majority for many years in the legislature, the nominal men and the Whigs coalesced to control legislation in accordance with Whig doctrines. Even with such a record made and making by them, the nominal men persisted in calling themselves Democrats, while Jackson was vetoing the Maysville road bill, grappling with the national bank and exposing the oppressive character of the tariff act then in force, which imposed the highest scale of duties since the first enactment for protection in 1816.

It was their practice to run men like themselves for the state offices, where the chances of a plain spoken Whig were hopeless and, by means of the nominal character of the candidate, secure enough Democratic votes, united with the Whig, to elect him. In the very next canvass Mr. Lincoln himself was taken up by such a combination and triumphantly elected. Such things were made feasible by the prevalent mode of making nominations without the salutary intervention of regular party conventions and committees. We repeat that Mr. Lincoln's position was midway between the extremes in local politics.

Lincoln's friend, Mr. A. Y. Ellis, who was with him during a part of this campaign, says: "He wore a mixed jeans coat, claw hammer style, short in the sleeves and bobtail—in fact, it was so short in the tail he could not sit on it—flax and tow linen pantaloons and a straw hat. I think he wore a vest, but do not remember how it looked. He then wore put metal boots. I accompanied him on one of his electioneering trips to Island Grove, and he made a speech which pleased his party friends very well indeed, though some of the Jackson men tried to make sport of it. He told several anecdotes in his speech and applied them, as I thought, very well. He also told the boys several stories which drew them after him. I remember them, but modesty and my veneration for his memory forbid me to relate them."

Treason Trial in Progress.

Otchakoff, Russia, Feb. 21.—The trial of Lieutenant Schmidt and thirty-seven sailors, of the cruiser Otchakoff and two students of the University of Odessa has begun before a military and naval court. The trial is expected to last ten days. The general charge against all of the accused is participation in a movement to overthrow the government and of active armed resistance, the punishment for which is death.

IN A DUAL ROLE

How Harry Orchard Carried Water on Both Shoulders.

HAS A BLOODY RECORD

It Is Declared That Alleged Assassin of Stuenenburgh Caused the Deadly Independence Explosion.

In the Role of Detective Orchard Worked Both the Mine Owners and the Union.

Denver, Col., Feb. 21.—Harry Orchard, who is under arrest in Idaho, charged with assassinating former Governor Stuenenburgh, and who has made a confession charging the leaders of the Western Federation of Miners with instigating a number of dynamite outrages and murders, was in the employ of the Cripple Creek Mine Owners' association as a detective during the great strike in the Cripple Creek district. This most important fact will be used in the defense of the accused labor leaders when they are brought to trial in the courts of Idaho. It is declared that Orchard was a member of the Western Federation of Miners and employed in the Cripple Creek district when the famous strike was ordered. In November, 1903, he approached a conductor named Jones on the Florence & Cripple Creek railroad and introduced himself as a brother Mason. "I am a member of the miners' union," said Orchard, "and last night I heard some of the members of the union planning to wreck a train on this road. I do not believe in such methods, and I thought I would come to you and tell you of the plot. I picked you out because you are a Mason."

Jones immediately took Orchard to Scott and Sterling, the detectives for the Mine Owners' association. He repeated his story and Scott and Sterling immediately employed him as a detective to work for the Mine Owners' association. He was instructed to attend the meetings of the union and report daily. Orchard continued in the employ of the Mine Owners' association until June, 1904. The day before the explosion which wrecked the Independence station, he collected some life insurance due him because of the death of a relative.

Then came the explosion at the Independence station on June 6, and Orchard disappeared. A mob took possession of Cripple Creek and Victor and attempts were made to force confessions from many suspected persons. A young man was suspended by his thumbs, and he finally agreed to tell the name of the fiend who had caused the explosion. When he was lowered to the ground he said: "Harry Orchard did it."

The pursuit of Orchard was taken up, bloodhounds being employed. Orchard and a companion named Neville immediately after the Independence explosion secured a rig and drove out of Cripple Creek. They went across the country, avoiding the more important towns. When they reached Greeley they disposed of their rig and took a train for Cheyenne, where Orchard received a considerable sum of money from friends in Colorado, and disappeared. He returned to Denver last April and visited the headquarters of the Federation of Miners in this city. He said that he feared arrest because of the charges made against him in connection with the Independence explosion, and had therefore changed his name to Hogan. For a time he worked for various insurance companies in this city and last August left Colorado, saying he was going to New York. The next heard of him he had been arrested in Idaho charged with the assassination of Stuenenburgh.

Neville was arrested in Wyoming and taken back to Cripple Creek, but no serious attempt was ever made to prosecute him. Sheriff Bell of Cripple Creek claims that Neville confessed to him that he and Orchard dynamited the station. It is said that Neville is now dead.

Lawyer's Rich Reward.

Minneapolis, Feb. 21.—Miss Edna Dickerson, who inherited an estate valued at \$2,000,000 from her cousin, Alfred Johnson of Minneapolis, has been married to Simon Kruse, a lawyer of Chicago. Miss Dickerson was formerly a stenographer in Chicago and was occasionally employed by Mr. Kruse, who later acted as her attorney during the long legal fight over the Johnson will waged by relatives who were cut out by its provisions.

Walsh Roads to Be Sold.

Chicago, Feb. 21.—Announcement is made by members of the special clearing house committee which has charge of the railroads of John R. Walsh, turned over by him to secure the money advanced in the refundment to the Chicago National bank, that the sale of the Chicago Southern and the Southern Indiana roads will be accomplished within ten days.

Will Vote This Afternoon.

Washington, Feb. 21.—The senate listened for three or four hours to a discussion of the details of the pure food bills. There is an agreement to vote on all amendments late this afternoon.

STORMS DENIES IT

Official Who Has Just Resigned Says He Doesn't Owe State.

Indianapolis, Ind., February 21.—"When the governor, in his formal statement, declares that I have admitted an indebtedness in certain sums stated in detail by him, he states that which is not true. I did not admit to him or to anyone else that I owed the state." Secretary of State Storms made the foregoing statement in reply to the one given out by Governor Hanly after the secretary's resignation had been announced. The governor said that Storms admitted that he owes the state for several items ranging from \$700 to \$1,757.80. Storms declares that he has never acknowledged to anyone that he owes the state a cent. "The governor has threatened to sue my bondsmen, and though the sum demanded is insignificant, and though we, all the time, have been certain that we would win the suit in court, I concluded that it would be best for me to prevent further persecution of my closest friends and step out. It was the desire to save my bondsmen from petty attacks that caused me to resign," he says. Storms said that his attorneys advised him that he does not owe the state a cent. He also vigorously denied the insinuation that the railroad companies had agreed to make good his shortage in order to get him to resign and avert a special session of the legislature. It was reported that he had accepted a position with a Western mining company at a big salary, but he said it was not true and that he has no definite plans.

There will be a scramble for first place on the Democratic ticket this year. James Cox of Columbus, who has been the only avowed candidate for secretary of state, will be opposed by Mayor C. R. Duran of Lafayette, as one of the latter's close friends said today that his name will be presented. Cox was here today. He said he is anxious to make the race. "If conditions are the same throughout the state as they are in my county there is no doubt in my mind that we will win," he said. "I am sure at any rate that we have a fine fighting chance." Cox's views are the same as other party leaders held. He is a good campaigner, has a good record and will probably have a large following at the convention. Mayor Duran is also a fine campaigner and has attracted favorable attention because of his two victories at Lafayette. Mayor Fogarty of South Bend may be a candidate for renomination, and the name of ex-Congressman Robert Miers of Bloomington is mentioned, but he will not be a candidate. The indications are that the field of Democratic candidates will be larger than for several years.

The appellate court has rendered a decision of much interest to county officers generally, holding that commissioners may use the public money in defending themselves in suits where they are made defendants. A judgment forbidding the Jackson county commissioners from using money from the public treasury in defending themselves was reversed. In rendering the decision Judge Wiley said: "To hold that a board of county commissioners when sued in its corporate capacity could be enjoined from using public money in making its defense would establish a precedent which would put the several boards of county commissioners throughout the state at the mercy of unwarranted legal attacks on them."

The candidacy of John Isenbarger of North Manchester for nomination for state treasurer on the Democratic ticket was announced today. Isenbarger is chairman of the Wabash county committee and an active politician. He believes the Democrats have a splendid show of winning this year.

Interest Default Is Alleged.

Cincinnati, Feb. 21.—A foreclosure suit against the property of the Ohio and Indiana Gas company and the Ohio and Indiana Consolidated Natural and Illuminating Gas company, has been filed by the Central Trust company of New York in the United States circuit court in this city. This petition alleges default in payment of interest on a balance of \$1,940,000 in bonds issued by the Ohio and Indiana Gas company on Dec. 1, 1896, and later assumed by the consolidated company.

Shocking Death of Children.

South Bend, Ind., Feb. 21.—Ida K. Tetzlaff, aged twelve; Bertha O. Tetzlaff, seven; Carl G. Carlson, eleven, and Anna M. Carlson, eight, were burned to death at the home of August Carlson, southwest of this city. One of the children mistook the gasoline can for the kerosene can and poured the contents on a fire. An explosion followed and the children were so badly burned that all died within a few hours. Mrs. Carlson was shopping in this city at the time.

New Bond Issue for Japan.

Tokio, Feb. 21.—Subscriptions are officially invited to the new internal 5 per cent loan of \$100,000,000 at the issue price of 95, which will not be redeemable until five years have elapsed, after which redemption will be extended over twenty-five years.

He Took It to Heart.

Underwood, Ind., Feb. 21.—Clarence Robbins, aged twenty-two, shot himself through the heart in the home of Mrs. Josephine Robbins, because Annie Robbins, his cousin, refused to marry him.

Well Known Jurist Dying.

Logansport, Ind., Feb. 21.—Judge David D. Dykeman, one of the foremost citizens of Logansport, is dying.

Does your baking powder contain alum? Look upon the label. Use only a powder whose label shows it to be made with cream of tartar.

NOTE.—Safety lies in buying only the Royal Baking Powder, which is the best cream of tartar baking powder that can be had.

WILL NOT PAY IT

Mr. Cromer Says Primary Campaign Assessment Is Exorbitant.

A POLITICAL REVOLT

Affairs in the Eighth District Have Reached a Point Which Calls For Arbitration.

State Committee Will Probably Be Forced to Adjust the District Squabble.

Muncie, Ind., Feb. 21.—Congressman Cromer of this city has served notice on Eighth District Chairman Terhune that he will not pay the assessment of \$3,750 as his share of the expenses for the congressional primaries, and also that he will appeal the matter to the Republican state committee for settlement. Cromer not only objects on the ground that the assessment is exorbitant, but that the rules are very unfair to him. The rules have stirred up a revolt in the district and Randolph, Delaware and Adams counties have decided not to abide by them. They were prepared by Horace Stillwell, Cromer's opponent, who it is declared forced them through with his majority of one on the district committee. They were drawn so that he could name every election officer in the district and provided also that no one's name should be placed on the ticket unless an assessment of \$3,750 was paid. Cromer's followers advised him not to pay the assessment under the circumstances, as they felt that he would not receive a square deal with all the election machinery in his opponent's hands. There is no state law whereby a district chairman can keep anyone from running for congress independent of his rules. The state committee has tried to keep out of the muddle, but Chairman Goodrich will probably be forced to call a meeting soon to settle the question.

BAD BOYS FLOGGED

Evansville City Court Recommends Application of Strap Oil.

Evansville, Ind., Feb. 21.—Three white boys, Frank Benton, John Klein and Thomas Skeets, each eighteen years old, were charged with drunkenness before Police Judge Winfrey, and the court told the parents he would release the lads if they would give them a good dose of "strap oil." The fathers consented, and after court adjourned the boys were led into the lockup, where, in the presence of Mayor Boehne, Judge Winfrey and several police officials, they were severely flogged by the fathers.

Farmers Demand More Attention.

Logansport, Ind., Feb. 21.—Farmers of Cass county are taking serious objections to some of the new laws enacted by the last legislature, particularly the drainage law, contending that it is a one-sided affair, too much in favor of the county surveyor and of no particular benefit to the tax-paying farmer. At the Deer Creek Township Farmers' institute held at Young America the 250 farmers who attended paid their respects to the legislature in several resolutions which they passed, and which deal with questions of vital interest to farmers of the state. The hope was expressed by those present that the farmers throughout the state take up the matter and impress on their representatives in the legislature that, regardless of party affiliation, laws should be enacted which will give the farmer a "square deal."

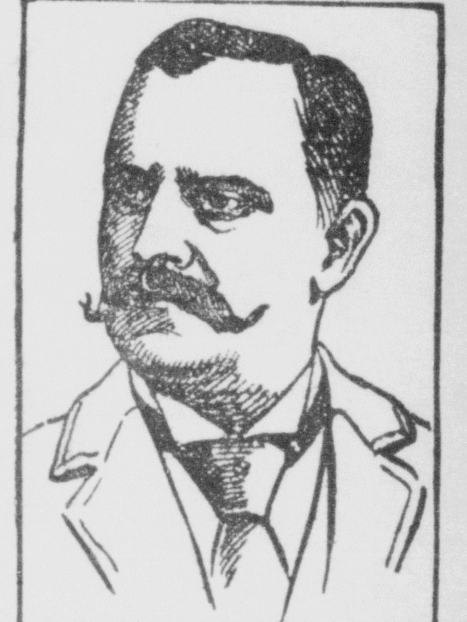

Alleged to Be Short in Accounts.

Fort Wayne, Ind., Feb. 21.—Mayor Hovey has announced that William Urbahn, secretary of the waterworks board under the recent Republican administration, and Joseph A. Biemer, Democratic assistant, are short in their accounts about \$1,800. An expert has been examining the books since January. Urbahn and Biemer deny the charges.

GREEN'S TRIAL BEGINS

BETTER COUNSEL PREVAILS

Hungary Will Not Cut Off Its Nose to Spite Its Face.

Budapest, Hungary, Feb. 21.—After further and calmer consideration the members of the coalition decided not to proceed to the parliament buildings today. While not necessarily admitting the legality and constitutionality of Monday's dissolution of the parliament, the fact that the houses were dissolved must be recognized, otherwise the members of the lower house could not take part in any manner in the next elections or in the holding of meetings throughout the country beginning at the end of this week to inform their constituents regarding the events of Monday. The members of the coalition will not purposely invite violence from the government, but will proceed with their individual political activities as circumstances permit, quite undeterred by knowledge of what the government purposes to do.

Rumors are current to the effect that Hungary may start a boycott movement against Austrian products, relying on the possibility that the country can obtain such articles as cheaply elsewhere, while Austria will have to pay much higher prices for agricultural products obtained elsewhere than from Hungary.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all the druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SUICIDE.

Mrs. Henry Meyer Swallows Carbolic Acid.

Mrs. Mary S. Meyer, wife of J. Henry Meyer, residing north of Seymour and west of Peter's Switch, committed suicide Tuesday afternoon by taking carbolic acid according to the judgment of the coroner after investigating the case.

Her husband came to Seymour in the forenoon with his wagon and team and got home a little afternoon. He unhitched his team and then went to the house. He found the doors locked and made his way in through a window. In the front room he found the bible open on a table and his wife's spectacles on the table. He then went into the bed room and was shocked to find Mrs. Meyer lying on the floor unconscious. He tried to arouse her but could not. He then summoned some of the neighbors and sent for a physician. But the deadly drug had done its work and Mrs. Meyer died a little after 2 o'clock.

Coroner Washburn and Dr. H. R. Kite held an inquest Wednesday morning and took the testimony of Mr. Meyer and several of the neighbors. No cause can be assigned for her taking her own life except that she had been afflicted with nervous trouble for some time. She was a good woman and had many friends.

Mrs. Meyer was 58 years of age and besides her husband leaves one daughter, Mrs. George Welmer, and five grand children. Funeral services Friday at 12 o'clock from the residence and at 1:30 p. m. same day services from St. Paul's church in this city. Burial at Riverview.

What Irwin Says.

For the past two or three days stories have been coming from Seymour to the effect that the Irwins had decided to build the Seymour extension of the Indianapolis, Columbus & Southern Traction Company on the east side of White river. General Manager W. G. Irwin, when asked about these reports today, said he could not honestly answer a question as to which side the road will be built on. He says both sides have their advantages and one day he will favor one side while the next day he believes the other side will be the better. However, at the present time the management of the road has not decided one way or the other.—Columbus Republican.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. MERCURY MAKES WRECKS NOT CURES

Thousands who have had their health ruined by Mercury testify that it makes wrecks instead of cures in the treatment of Contagious Blood Poison. While it may mask the disease in the system for awhile, when the treatment astrous effects of this powerful mineral. Mercury, and Potash, which is also a common treatment for Contagious Blood Poison, eat out the lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and muscles, and leave its victims complete physical wrecks. Another effect of this treatment is mercurial Rheumatism, the worst and most hopeless form of this disease. There is but one certain, reliable antidote for this destructive poison, and that is S. S. S. It is the only medicine that is able to go into the blood and cure the disease permanently. S. S. S. does not hide or cover up anything, but so completely drives out the poison that no signs of it are ever seen again. S. S. S. is made entirely of roots, herbs and barks, and while curing Contagious Blood Poison, will drive out the effects of any mineral treatment. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral of any kind. Book with instructions for self-treatment and any medical advice wished furnished without charge.

Health of American Women

A Subject Much Discussed at Women's Clubs—
The Future of a Country Depends on the
Health of Its Women.

At the New York State Assembly of Mothers, a prominent New York doctor told the 500 women present that healthy American women were so rare as to be almost extinct.

This seems to be a sweeping statement of the condition of American women. Yet how many do you know who are perfectly well and do not have some trouble arising from a derangement of the female organism which manifests itself in headaches, backaches, nervousness, that bearing-down feeling, painful or irregular periods, pelvic catarrh, displacement of the female organs, indigestion or sleeplessness? There is a tried and true remedy for all these ailments. Lydia E. Pinkham's Vegetable Compound has restored more American women to health than all other remedies in the world. It regulates, strengthens and cures diseases of the female organism as nothing else can. For thirty years it has been curing the worst forms of female complaints.

Such testimony as the following should be convincing.

Mrs. T. C. Willadsen, of Manning, Ia., writes:

Dear Mrs. Pinkham—
"I can truly say that you have saved my life and I cannot express my gratitude to you in words. For two years I spent lots of money in doctoring without any benefit for female irregularities and I had given up all hopes of ever being well again, but I was persuaded to try Lydia E. Pinkham's Vegetable Compound and three bottles have restored me to perfect health. Had it not been for you I would have been in my grave today."

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail

Miss Mattie Henry, Vice-President of Danville Art Club, Danville, Va., writes: Dear Mrs. Pinkham—
"Many years suffering with female weakness, inflammation and a broken down system made me more anxious to die than to live, but Lydia E. Pinkham's Vegetable Compound has restored my health and I am so grateful for it that I want every suffering woman to know what Lydia E. Pinkham's Vegetable Compound will do for her."

When women are troubled with irregular, suppressed or painful periods, weakness, pelvic catarrh, displacements, that bearing-down feeling, inflammation, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. No other medicine in the world has received such unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

CLEANLINESS IS NEXT TO GODLINESS

Dirty coal makes dirty hands, dirty stove, dirty pots and pans, and a dirty house. There's no more sense in buying dirty coal than there is in buying dirty food.

Every pound of our immense stock of hard and soft coal is thoroughly cleaned before it reaches us. Then it is again cleaned before being stored in our yards, where it is placed under cover so that it cannot get dirty, wet nor "slushy."

When you buy coal of Ebner you get absolutely clean coal. You also get the very best coal. Raymond City is the best soft coal mined. We are sole agents for it in Seymour, and we are now selling it for only \$4 per ton. Don't you think you had best lay in a supply of Raymond City or some other high grade coal before the miners' strike begins on April 1? Remember the trouble you had getting coal during the last strike of miners.

CAUTION! This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, Bronchitis, croup—and especially for constipation, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. W. F. Peter Drug Co.

HE NEVER SAID IT

Garfield Denies That He Promised Immunity to Packers.

THE OTHER SIDE OF IT

Commissioner of Corporations on Witness Stand Directly Contradicts Evidence of Big Packers.

First Witness For the Government Brings the Matter to a Question of Veracity.

Chicago, Feb. 21.—Commissioner of Corporations Garfield took the stand in the packers' case and denied many of the statements made by the witnesses for the packers during the hearing of the immunity pleas now in progress. Edward Morris, Edward Swift and Arthur Meeker, representatives respectively of the packing firms of Nelson Morris & Co., Swift & Co., and Armour & Co., all testified that Commissioner Garfield had told them that his department had the power to compel information if they refused to give it willingly. Mr. Garfield on the stand declared that he had never made such a statement. He also denied that he had ever promised immunity to the packers, saying that the only protection that had been promised was protection for the individual figures of their confidential figures. This he said had been given them, and although the average of these confidential figures had been given in the report of the commission on the beef industry, individuals had been respected and their names had not been given. He also denied positively that he promised that all information would be regarded as confidential. He also denied that he had at any time said anything regarding an oath in connection with the investigation. Mr. Garfield was the first witness for the government, the packers having rested their case.

Depravity of Indians.

Albany, N. Y., Feb. 21.—Conditions on the Indian reservations in this state are pronounced a discredit and a disgrace in the report of a special committee of investigation presented in the assembly. The depraved moral condition on the reservations, the committee believes, is due largely to the failure of the Indians to observe the sanctity of the marriage relation and to the ease with which divorces are granted. To cure these wrongs the committee recommends an extension to the reservations of the laws of the state governing marriage and divorce.

Bold Thieves at Dayton.

Dayton, O., Feb. 21.—Two men drove up in front of a jewelry store on Fifth street at 6 o'clock last evening, and while one of them watched from the carriage the other smashed the big plate-glass window with a coupling pin and grabbed a tray full of diamond rings valued at \$4,000. A passer-by attempted to seize the thief, when the latter's companion in the carriage fired, the bullet going into a candy store, narrowly missing the proprietor. The thieves then whipped up their horse and drove away. There is no clue to their identity.
